

SAVING THE GAINSBOROUGH.

At 2 P.M. Sunday the wrecked bark was successfully pulled off the beach by the tug Eleu-The above represents her as she appeared passing the lighthouse in tow of the tug. [Sketched by an Advertiser Artist.]

GAINSBOROUGH

Pulled Off the Reef by the way and repaired. Eleu Sunday Afternoon.

GOOD PURCHASE FOR OWNERS.

Working Against Difficulties - Satisfactory Little Damage to Hull-To be Repaired.

The bark Gainsborough from Newcastle, N. S. W., which went on the sand dollars. He saved cargo of 1,200 reef opposite the lookout station at tons of coal may be put down at \$6,-Diamond Head on the morning of Au- 000, and this will probably pay the exgust 29, was safely taken off at 2 p. m. yesterday and towed to a point near the vessel. It is conceded by every one the railway wharf where she now lies. that Allen & Robinson made a good

After the wreck was bought by Al- buy. len & Robinson Captain Thompson of the bark S. C. Allen was given an interest in her to take her from her posi- Some Items of Interest to Teachtion. He sent schooners to the vicinity and removed a lot of her cargo of coal from between decks, but he had to he transferred his interest to Captain Calway, late of the Waimanalo. Cap-As the captain has had experience in Punahou. this line of work Mr. Allen sent him to the wreck with the request that

opinion of her condition. it could be accomplished quicker by ing American universities. the use of an engine and pump. This the use of an engine and pump. This suggestion was carried out by securing the necessary articles from the Oahu the necessary articles from the necessary articles from the Oahu the necessary articles from Railway Co. With much difficulty they were put on board, but the fire box in the engine was so small and the defects in the pump so numerous that it was four days before the pump that it was four days before the pump could do much. When it was in order a six-inch stream of water was forced out of the pipes and in a few hours the twenty-one feet of water in the hold will soon be elected.

Harold Spencer, William Godfrey, Almon, Mrs. S. E. Taylor, Mr. and Mrs. Lemon, Mrs. H. B. Bailey, Mr. and Mrs. G. E. Beckwith, Mrs. Thurston, Mr. and Mrs. G. Gilhus, Mr. and Mrs. Peter twenty-one feet of water in the hold will soon be elected. had lowered a foot. As the vessel had will soon be elected. listed to starboard and the water was keep out all the water possible.

When sufficient water was taken out the vessel swung round on an even keel and the men were set at work throwing coal overboard so as to make thro her as light as possible. Seventy tons French language at the Punahou Pre- Profs. Koebele and W. C. L. Perkins only were lost in this way, but the paratory School have been quite suc-loss was a profit in other ways, as it cessful this year under the direction quarters are near to Punniniau and morning the between decks was free college at an advantage. from water and all that was in the vessel was in the lower hold. Captire corps of teachers of the college at hold. Captire corps of teachers of the college at hold. Captire corps of teachers of the college at hold. Captire corps of teachers of the college at hold. The recent drought has destroyed about half of the 11,700 trees on his tain Ward went ashore and telephoned the owners that he believed the vessel could be pulsed off at high tide, and at 10:20 the tug went out, reaching there an hour later. Lines were fastened bust of Goethe in the library of the Compbell of Walhee plantation, died bust of Goethe in the library of the Compbell of Walhee plantation, died during Sunday, September 27th. The on the stern of the Gainsborough and Grand Duke at Weimar. the tug started. The vessel moved sent up a shout. A few minutes later supervision of Miss Bessie Foster deputy sheriff, so the report is. the vessel was in deep water, floating French. like a duck. She slippel two anchors and a hawser, but these were of little consequence compared with the valuable vessel. They were given to the Luka as a prize and there is no doubt they will be picked up.

The damage to the Gainsborough is library, the former by Prof. Wm. D. front of his residence. slight. Captains Ward and Calway Alexander. believe the only hole in her is in the bow, just forward of her water-tight compartment, and this fact made it possible to save the vessel. When Calway boarded her he closed the sluice opening from the hold into the compartment, and this prevented more water coming into the hold. It was an easy matter to pump the water out so long as the amount going into the vessel was that which passed through

the hatches. Captain Ward stated last night that

railway wharf and anchored. She was making very little water, and it was not deemed necessary to have the pumps work except at intervals during the night. Today she will be dock-SAFE IN HARBOR ing the night. Today she will be docked and the 900 tons of coal in her hold will be discharged. A diver will probwill be discharged. A diver will probably go down this morning and ascertain the extent of her injuries, and when her cargo is removed the Gainsborough will be put on the marine rail-

The Gainsborough is an iron bark, built in London thirty years ago. Her dimensions are: Length over all, 230 feet; gross tonnage, 1,039; net, 974. When she went on the reef she was in charge of Captain McPhail, who had been master of her for the past twelve years. Before abandoning his vessel he consulted some of the most experienced seamen at this port, and acting upon their opinions he turned the wreck Pesults of the Efforts of Captains Ward over to the Marshal and it was sold a day or two after at auction. There and Calway-Will be Docked Today-But were few bidders and it was knocked down to Allen & Robinson for \$1,825. Marcus Colburn put in a claim for salvage, but it was not allowed.

It is difficult to get the exact value of the vessel, but it is variously estimated at from fifteen to twenty thoupense of bringing her into port and making all the repairs necessary on
